LEO Pharma pipeline overview 2022 Q4

Description	Partners	Pre-clinical	Phase 1	Phase 2	Phase 3	Registration
A topical pan-JAK inhibitor under development for chronic hand eczema.	JT		>	>	Y ///////	
A topical pan-JAK inhibitor under development for frontal fibrosing alopecia.	JT		>	Y ////////		
A monoclonal antibody under development for atopic dermatitis.	ONENESS BIO MICROBIO		>	Y ///////		
A monoclonal antibody under development for allergic asthma.	ONENESS BIO MICROBIO		>	Y ///////		
An anti-inflammatory monoclonal antibody under development for atopic dermatitis.	argenx		>	X ////////		
A systemic anti-pruritic and anti-inflammatory H4 receptor antagonist under development for atopic dermatitis.	jw		>	Y ///////		
A systemic anti-pruritic and anti-inflammatory H4 receptor antagonist under development for cholinergic urticaria.	j w		>	Y//////		
An IL-17 small-molecule modulator under development for psoriasis.						
	A topical pan-JAK inhibitor under development for chronic hand eczema. A topical pan-JAK inhibitor under development for frontal fibrosing alopecia. A monoclonal antibody under development for atopic dermatitis. A monoclonal antibody under development for allergic asthma. An anti-inflammatory monoclonal antibody under development for atopic dermatitis. A systemic anti-pruritic and anti-inflammatory H4 receptor antagonist under development for atopic dermatitis. A systemic anti-pruritic and anti-inflammatory H4 receptor antagonist under development for cholinergic urticaria. An IL-17 small-molecule modulator under development	A topical pan-JAK inhibitor under development for chronic hand eczema. A topical pan-JAK inhibitor under development for frontal fibrosing alopecia. A monoclonal antibody under development for atopic dermatitis. A monoclonal antibody under development for allergic asthma. A monoclonal antibody under development for allergic asthma. An anti-inflammatory monoclonal antibody under development for atopic dermatitis. A systemic anti-pruritic and anti-inflammatory H4 receptor antagonist under development for atopic dermatitis. A systemic anti-pruritic and anti-inflammatory H4 receptor antagonist under development for cholinergic urticaria. An IL-17 small-molecule modulator under development	A topical pan-JAK inhibitor under development for chronic hand eczema. A topical pan-JAK inhibitor under development for frontal fibrosing alopecia. A monoclonal antibody under development for atopic dermatitis. A monoclonal antibody under development for allergic asthma. A monoclonal antibody under development for allergic asthma. An anti-inflammatory monoclonal antibody under development for atopic dermatitis. A systemic anti-pruritic and anti-inflammatory H4 receptor antagonist under development for atopic dermatitis. A systemic anti-pruritic and anti-inflammatory H4 receptor antagonist under development for cholinergic urticaria. An IL-17 small-molecule modulator under development	A topical pan-JAK inhibitor under development for chronic hand eczema. A topical pan-JAK inhibitor under development for frontal fibrosing alopecia. A monoclonal antibody under development for atopic dermatitis. A monoclonal antibody under development for allergic asthma. A monoclonal antibody under development for allergic asthma. An anti-inflammatory monoclonal antibody under development for atopic dermatitis. A systemic anti-pruritic and anti-inflammatory H4 receptor antagonist under development for atopic dermatitis. A systemic anti-pruritic and anti-inflammatory H4 receptor antagonist under development for cholinergic urticaria. An IL-17 small-molecule modulator under development	A topical pan-JAK inhibitor under development for chronic hand eczema. A topical pan-JAK inhibitor under development for frontal fibrosing alopecia. A monoclonal antibody under development for atopic dermatitis. A monoclonal antibody under development for allergic asthma. An anti-inflammatory monoclonal antibody under development for allergic asthma. A systemic anti-pruritic and anti-inflammatory H4 receptor antagonist under development for atopic dermatitis. A systemic anti-pruritic and anti-inflammatory H4 receptor antagonist under development for cholinergic urticaria. An IL-17 small-molecule modulator under development	A topical pan-JAK inhibitor under development for chronic hand eczema. A topical pan-JAK inhibitor under development for frontal fibrosing alopecia. A monoclonal antibody under development for atopic dermatitis. A monoclonal antibody under development for allergic asthma. A monoclonal antibody under development for allergic asthma. An anti-inflammatory monoclonal antibody under development for atopic development for atopic dermatitis. A systemic anti-pruritic and anti-inflammatory H4 receptor antagonist under development for atopic dermatitis. A systemic anti-pruritic and anti-inflammatory H4 receptor antagonist under development for cholinergic urticaria. An IL-17 small-molecule modulator under development
