

Wholesale Acquisition Cost Information for Colorado Prescribers

In accordance with the requirements under Colorado Statute § 12-42.5-308, LEO Pharma Inc. is providing the following information to Colorado Prescribers:

Product	Package size	WAC Per Package Size*
Spevigo®	One carton of (2) 450mg/7.5ml vials	\$55,806.56
Spevigo®	One carton of (2) 150mg/ml syringes	\$18,602.20
Spevigo®	One carton of (2) 300 mg/ml syringes	\$37,204.40
Spevigo®	One carton of (1) 300 mg/ml syringes	\$18,602.20

There are no FDA approved biosimilar products from the same therapeutic class. **

*The wholesale acquisition cost (WAC) price set forth herein reflects the undiscounted list price to wholesalers without regard to prompt pay or other discounts, rebates, or other price reductions. The WAC may not represent actual costs to patients, payers and health systems and should not be considered a reflection of the actual transaction prices. The price paid by patients is often different than the WAC price, and most patients will not pay the WAC price. How much a patient will pay will depend on several factors, including the patient's insurance coverage, and any discount or other programs that the patient may be eligible to participate in.

**This list does not imply that the products are interchangeable or have the same efficacy or safety. Please refer to each product's FDA-approved label and indication for further information.
